NA08 Sierra Red	
NA09 Oxidation	
NA10 Titanic	

The colours in this document are printed, and therefore, may vary slightly from the original Trespa panel colours with respect to gloss, colour shades and surface texture. Original samples are available on request.

7 NEW WOOD DECORS

Trespa has added 7 new Wood Decors to the extensive range of natural colours and designs available for the Meteon panel. The collection now comprises 17 Wood Decors plus 6 Naturals.

The Trespa Meteon range of architectural panels is widely used for exterior cladding.

The panels are available in a very extensive range of colours, metallics, naturals and unique finishes. Each panel comprises thermosetting resin homogeneously reinforced with 70% wood based layers and manufactured under high pressure and high temperature. This results in a panel with a smooth, non-porous surface. The panel is very tough and exceptionally durable, with dimensional stability, workability and resistance to UV similar to hardwood.

Think Nature. Think Wood. Think Trespa.
